# Picking season is here!

The Sarina Russo Harvest Services office in Gayndah is the link between local fruit growers and workers keen for temporary jobs.

## Gayndah

Gayndah is situated 366 kms North West of Brisbane and 144 kms to the West (inland) of Maryborough. It is located on the Burnett River, and has earned the title of the “orange capital of Queensland”

## Mundubbera

Mundubbera is located on the banks of the Burnett River, 390 kms North West of Brisbane and 189 kms North West (inland) of Maryborough and supports a large citrus industry (especially mandarins).

### Pay rates and work conditions

Most pickers are paid on a “*piece rate*”. First time pickers may find it difficult, however picking is like any physical skill – *you get faster the more you do!* For fruit packing and shed hand work, payment is usually by wages. The majority of growers pay fortnightly.

### Accommodation, transport and climate

Accommodation is limited, so camping equipment is an advantage. There are a number of hotels and motels located in town; however these will most likely be fully booked during the height of the season. The local caravan parks have excellent facilities including camping grounds – but you’ll need to book well in advance. Some farms have camping areas on site, so it may be appropriate that workers bring their own camping equipment.

Harvest workers must have their own transport as there is no public transport other than taxis. The weather during the harvest season (April - September) can vary and wet weather gear and warm bedding are needed in the colder parts of the season.
